# Michelle

“As an international student, one of the most important things I looked for was being able to settle into a new environment with as smooth a transition as possible. The UIC Barcelona School of Architecture helped me to do so with incredible ease. The level of diversity of the students from all around the world was definitely a reassuring aspect that made it clear that I had made the right decision to move, especially so far from home. The thing that has captivated me most is the School of Architecture’s holistic approach to learning. This system has evoked in me a desire to express and explore my talent and its potential impact further, with a deeper understanding on an international level.”
