

PORTFOLIO REQUIRED FOR SYSTEMIC DESIGN

A portfolio in English language is required for the Laurea magistrale in Design.

The portfolio should be **organized in boards** (max 10, horizontal format, only one file PDF) documenting research and projects undertaken by the student during the Bachelor course at the home university.

Each file must include:

- The graphic documentation of the research / project.
- A short text describing the purpose of the research / project through:
 1. the object of the research / project;
 2. the methodology adopted to develop the product project;
 3. historical cultural references of the research / project
 4. focus on the sustainability of the product and / or process
 5. graphic representation techniques adopted
