Admissions are limited to the number of student places illustrated in Annex A to this Call.
2. Annexes A,B, C and D are integral parts of this Call for applications.
3. For the purposes of defining the ranking lists, the following categories have been given the following meaning:  
**European Union applicants:** Italian citizens or other EU nationals;  
**Equivalent applicants:**
  - applicants from Norway, Iceland, Lichtenstein, Switzerland and San Marino;
  - non-EU nationals legally residing in Italy with a valid residence permit for study, work or family reasons;
  - political refugees;
  - staff members of Foreign Diplomatic Missions (Embassies/Consulates) and International Organizations based in Italy, legally accredited to the Italian Government or to the Holy See (including family members: spouse and children);
  - non-EU nationals legally residing in Italy or diplomats who have an Italian high school diploma awarded in Italy or abroad.**Non-EU applicants living abroad and requiring visa**
4. **Enrolment in the Professional Bachelor's degree programme in Industrial manufacturing Technologies is possible exclusively for EU and equivalent applicants.**
5. Having considered recent trends and the number of withdrawals which have taken place before 31<sup>st</sup> October in the latest academic years, the number of student places that can be assigned for each programme could be higher than the number of places illustrated in Annex A referred to in par. 1.
6. Applicants can register for the admission test (art. 3 and 4) on the Apply@polito platform starting from **Tuesday 23<sup>rd</sup> January 2024**.

## **Art. 2 (Admission requirements)**

1. The requirements for admission to the Bachelor's degree programmes of the Engineering area and to the Professional Bachelor's degree programme in Industrial Manufacturing Technologies for a.y. 2024/25 are the following:
  - passing the admission test (TIL-I / Test in Laib – Ingegneria) in accordance with the grades and thresholds illustrated in art. 7;
  - meeting the enrolment requirements of Annex B "*Requirements for enrolment in the Bachelor's degree programmes of the Engineering area and in the Professional Bachelor's degree programme in Industrial Manufacturing Technologies for a.y. 2024/25*";
  - meeting the specific requirements of Annex C "*Specific requirements for UK, Scottish, US high school diplomas and International Baccalaureate Diploma - a.y. 2024/25*".
2. Admissions to the Bachelor's degree programmes referred to in this article are subject to prior accreditation of the programmes themselves pursuant to current legislation.
3. The score obtained by the applicants in the TIL-I test is only valid for enrolment in academic year 2024/2025. For this reason, when applicants register for the TIL-I test, they must be attending their last year of high school (i.e. they should be getting their high school diploma in the summer of 2024 according to the Italian school calendar) or they must have already earned their high school diploma.

- For admissions to all Bachelor's degree programmes, non-EU applicants residing abroad and requiring visa (art.1, par. 3) who come from countries with a school system that allows children to start school earlier and get their high school diploma before the age of 18, must necessarily be 17 years old when they obtain their entry visa for study purposes.

Both the payment and the self-declaration must take place **before the deadlines** illustrated in art. 3. Should the self-declaration be found to be false or incorrect, the **registration for the test**, or the **test itself**, will be **cancelled**.

### **Art. 6 (TIL-I contents)**

1. The TIL-I test is an individual test, available in English and Italian, which is different for each applicant. It is made up of automatically and randomly selected computer interface questions. All tests have an equivalent level of difficulty.
2. The TIL-I test consists of 42 questions, divided into 4 sections, with a predetermined number of questions to be finished within a pre-set time:
  - 16 Math questions in 36 minutes
  - 10 Reading Comprehension and Logical Reasoning questions in 20 minutes
  - 10 Physics questions in 22 minutes
  - 6 Basic Technical Knowledge questions in 12 minutesThe total time for the TIL-I test is set at one hour and thirty minutes. Each question has 5 possible answers marked with the letters A, B, C, D, E, only one of which is correct.

### **Art. 7 (Test evaluation and admission thresholds)**

1. The result of each individual test is determined as follows:
  - 1 point for each correct answer
  - 0 point for each unanswered question
  - A penalty of 0.25 points (-0.25) for each incorrect questionThe score is converted to hundredths and calculated up to the second decimal position. At the end of the test, applicants will be able to see their score on the screen. Moreover, the test result will be available in the applicant personal page of the Apply@polito platform.
2. Applicants who score less than 4,8/16 out of 16/42 in the Mathematics section (which corresponds to less than 30% of the maximum score for the section) will have to fulfil some

supplementary academic obligations (in Italian, *Obblighi Formativi Aggiuntivi - OFA*). In particular:

- they will be invited to attend tutoring math classes during Year 1;
- they will be required to attend a course called «C.I.A.O. - *Corso Interattivo di Accompagnamento Online*» (online interactive support course). This course is normally offered in the week before the beginning of classes. It seeks to help applicants fill in the gaps in their Math knowledge through specific online tutoring sessions.

More details on this course will be available in the applicant's personal page of the Apply@polito platform, under the "TIL-I" section.

The Student Guide and the Teaching Regulations of each Bachelor's degree programme will explain how students can fulfil their OFA.

3. The **minimum thresholds for being included in the ranking lists are the following:**

- **30/100** for admission to the Bachelor's degree programme of the Engineering area.
- **a score greater than zero (0)** for admission to the Professional Bachelor's degree programme in Industrial Manufacturing Technologies.

The **guaranteed admission threshold** is **60/100**. This score enables applicants to enrol in the Bachelor's degree programme they have chosen as their first preference.

### **Art. 8**

#### **(Cases in which the test is declared invalid)**

1. During the in-person test applicants must abide by the following conduct rules, otherwise the test may be declared invalid:
  - be absolutely silent during the test, except when they need to ask a question to test supervisor.
  - exclusively make use of the blank sheets of paper and the pen/pencil provided by Supervision Committee;
  - it is forbidden to make use of personal materials such as sheets of paper, notebooks, notes, calculators, earphones or headphones (except for applicants entitled to extra time – art. 5) or other materials including mobile phones and smartwatches which must remain switched off at all times and must be placed on the desk; if the mobile phone or smartwatch makes any kind of sound (alarms, wake up alarms, vibrations etc.) the applicant will be invited to leave the room and will be excluded from the selection process.
2. When the test is declared invalid due to a violation of the conduct rules referred to in the previous paragraph, the applicant is not entitled to get any refund for the registration fee.
3. The provisions of art. 4, par. 4 of this Call (case in which a test is considered invalid) remain in force.

### **Art. 9**

#### **(Progetto Orientamento Formativo)**

1. Special TIL-I sessions (**held on 29<sup>th</sup> February 2024 and 1<sup>st</sup> and 5<sup>th</sup> March 2024**) are organized for the high school students who are participating in the "Progetto Orientamento Formativo" and wish to enrol at Politecnico di Torino.
2. Without prejudice to the special sessions referred to in par.1, applicants who are participating in the "Progetto Orientamento" must follow the general procedures illustrated in this Call.
3. Applicants who take part in the Project "Progetto Orientamento Formativo" and take the TIL test from March onwards upon payment of the corresponding registration fee, are allowed to retake the TIL test for 2 times.

In this case, Politecnico will consider the **highest score** obtained by the applicant in the tests.

### **Art. 10 (TIL-I results and date of publication of the ranking list)**

1. The TIL-I results are divided in two groups (EU/equivalent applicants and non-EU applicants requiring visa) and they are made public through the publication of:
  - a. the list of the applicants who have scored higher than or equal to the guaranteed admission threshold (art. 7, par. 3) ). This score enables applicants to reserve their student place/enrol in the Bachelor's degree programme chosen as their first preference. This list will be published **after each TIL-I session**.
  - b. a merit-based ranking list for each Bachelor's degree programme for the allocation of residual student places. This ranking list includes the applicants who are exempted from taking the admission test (art. 13, par. 1) and the applicants who have scored higher than or equal to the guaranteed admission threshold.  
The ranking lists will be published on **Tuesday 3<sup>rd</sup> September 2024**. Please note that applicants will be included exclusively in the ranking lists of the Bachelor's degree programmes that they have selected during the application process on the Apply@polito platform.
2. The above-mentioned ranking lists will be published in the online Bulletin (Albo online) and/or on the [website of Politecnico](#).
3. The "Enrolment regulations – A.Y. 2024-25" - which will be published on the [university website](#) by 28th March 2024 (enrolment opening date) - will illustrate the cases in which applicants need to reserve their student place before enrolling in a Bachelor's degree programme.

### **Art. 11 (List of applicants who scored higher than the guaranteed admission threshold and ranking lists)**

1. The applicants who have scored higher than or equal to the guaranteed admission threshold are entitled to reserve their student place /enrol in the programme of their first preference following the order of the ranking list.
2. The ranking lists are made with the following criteria:
  - a. there is a separate ranking list for each Bachelor's degree programme;
  - b. applicants are ranked in descending order based on their TIL-I score;
  - c. in case of equal ranking, the score obtained in the individual sections that make up the TIL-I test shall prevail, considered in the following order: Mathematics, Reading comprehension and Logical Reasoning, Physics and Basic Technical Knowledge. In case of a further equal ranking, the younger applicant will be chosen.
3. The ranking lists classify prospective students into the following categories:
  - ENROLLED STUDENT WITH INTERNATIONAL CERTIFICATE: a student who has got a valid international certificate (see art. 13, par. 1) and has already enrolled;
  - ASSIGNED STUDENT WITH INTERNATIONAL CERTIFICATE: a student with a valid international certificate who **MUST** reserve his/her student place/enrol in the Bachelor's degree programme assigned to him/her before the deadline for the update of the ranking list (see art. 14);
  - ENROLLED STUDENT: a student who has reserved his/her student place or has completed the online enrolment process (see art. 14);
  - ASSIGNED STUDENT: a student who **MUST** reserve his/her student place or enrol in the Bachelor's degree programme assigned to him/her before the deadline for the update of the ranking list (see art. 14); failure to reserve the student place/enrol by the deadline will result in the allocation of his/her place to another applicant – **therefore**,

**failure to reserve one's student place/enrol by the deadline in accordance with art. 14 entails permanent renunciation of the place.**

- **BOOKED STUDENT:** a student who can reserve his/her student place/enrol in a programme that is not the programme of his/her first preference. At the same time, this student may also be on the waiting list for one or more programme/s with higher preference based on the order of preference that he/she has expressed during the application process.

In this case, the student **CAN** either:

- reserve his/her student place and enrol in the programme that has been assigned to him/her and automatically give up the other preferences; or else,
- wait for the next call/s after the next update/s of the ranking list.

**If the applicant does not reserve his/her student place, Politecnico will consider that he/she intends to wait for the next call/s.**

- **STUDENT ON WAITING LIST:** a student who has not been offered a place in any Bachelor's degree programme chosen during the application process, but could be offered a place in a non-saturated degree programme in the next call/s if another student with a better score on the ranking list decides to renounce the right to enrol. This student must wait for the next the call/s.
- **INTERNAL TRANSFER NOT ALLOWED:** a student currently enrolled at Politecnico who has taken the TIL-I test in order to transfer to another programme but has not been included in the ranking list for admission to the new programme.
- **WAITING LIST RENUNCIATION:** a student who has explicitly renounced his/her right to be on the waiting list (art. 12, par. 3).
- **ENROLMENT RENUNCIATION:**
  - a student who has been **ASSIGNED** a place but has failed to reserve his/her student place / enrol by the deadline;
  - a student who has **ENROLLED** in a programme but has withdrawn from it before the closing date of the ranking list/ before the update of the ranking list referred in art. 12, par. 4 and in art 14, par. 1.
- **NOT ADMITTED STUDENT DUE TO UNFULFILLED LANGUAGE REQUIREMENTS:** a student who has correctly reserved his/her student place but is not allowed to enrol since he/she does not meet the language requirements illustrated in Annex B to this Call.
- **NOT ADMITTED STUDENT:** a student who has not reached the minimum admission threshold.
- **NOT ADMITTED STUDENT DUE TO CLOSED RANKING LISTS:** a student who has not been admitted since the ranking lists were already closed when he/she decided to enrol (see art. 12, par. 4).

## **Art. 12**

### **(How the ranking lists are updated)**

1. The applicants included in the ranking lists with the **ASSIGNED** status will be offered a place based on their preferences, starting from the first preference and within the limit of available places, using the following criteria:
  - a. if there is a place available in the programme that the applicant has chosen as his/her first preference, the applicant is offered a place in that programme (**ASSIGNED** student); his/her position on the ranking lists of the programmes of lower preferences will not be calculated.
  - b. if the applicant's first choice is not available, the next choices are taken into consideration, until a programme with at least one available place is identified. At this point, the applicant can choose between two options:
    - enrol in the programme assigned to him/her. In this case his/her position on the ranking lists of the other programmes will not be calculated.
    - wait for the next calls and see if new places become available in the degree programmes for which he/she has a **BOOKED** status.

- c. In the event that the most preferred programmes chosen by the applicant are full, the applicant will be shown with ASSIGNED status on the ranking list of the first programme with vacant places and will no longer be included in the ranking lists of the other programmes for which he/she was in waiting list.
  - d. Considering that each Bachelor's degree programme is capped to a predefined number of student places, offers of admission will be made to the applicants who have obtained the best scores in the TIL test until all places are full. For this reason, applicants who have not reached the admission threshold referred to in art. 7, par. 3 may not be admitted to any of the programmes chosen during the application process. In this case, depending on the TIL score, these applicants may be placed on WAITING LIST or – on the closing date of all ranking lists - they may NOT BE ADMITTED DUE TO CLOSED RANKING LISTS.
2. Allocations of places to the applicants included in the ranking lists are based on the updates of the ranking lists which depend on the number of students who reserve their place and enrol online before the deadlines of art. 14.
  3. The applicants included in the ranking lists who are no longer interested in enrolling at Politecnico di Torino and **intend to renounce their right to be on the waiting list**, are kindly invited to communicate this decision to Politecnico through the Apply@polito platform; **when an applicant renounces his/her right to be on the waiting list, he/she irrevocably gives up his/her position on the ranking list**; therefore his/her student place is assigned to another applicant on the ranking list.
  4. The ranking lists will be closed on **Tuesday 22<sup>nd</sup> October 2024**. After the closing date of the ranking lists, enrolment will no longer be possible.

### **Art. 13 (Exemptions from the TIL-I test)**

1. Upon specific request, applicants may be exempted from taking the TIL-I test if they have a **SAT, ACT, GRE and GMAT certificate**, recognized as equivalent to passing the TIL-I test (score equal to or higher than the guaranteed admission threshold) according to the following specifications:

The **outcome** of the verification process will be announced via e-mail **by Friday 19<sup>th</sup> July 2024**.

- ask the Examination Board (SAT, ACT, GRE and GMAT) to send the certificate to Politecnico di Torino for verification.
- 3. Applicants with an Italian university degree included among those listed in Annex D are exempted from taking the TIL-I test. These applicants are required to enter the information on their academic background on the Apply@polito platform.
- 4. The applicants who have already forfeited from studies or will incur in forfeiture (according to art. 19, par. 2 and 3) are also exempted from taking the TIL-I test. #### **(Applicants who take more than one admission test)**

1. Applicants who have taken more than one admission test for different Bachelor's degree programmes offered by Politecnico may be eligible for enrolment in an Engineering programme and at the same time they may be on a waiting list for other programmes (Architecture, Design or Planning). In this case, they must reserve their student place or enrol in the Engineering programme before the deadline in order to avoid losing the place. Subsequently, if they find out that they have been admitted to another programme (Architecture, Design or Planning) and they prefer to enrol in that programme, they will have to choose one of the following options using the online system:
  - withdraw from the Bachelor's degree programme in which they have enrolled ("withdrawal from studies"), following these steps:
    - a. fill out an online form available on their personal page of the Teaching Portal.
    - b. pay 16.00 Euro for the virtual revenue stamp required for the withdrawal (this amount must be paid from the personal page of the Teaching Portal).
    - c. enrol in the new Bachelor's degree programme after they receive the withdrawal confirmation (an e-mail confirming their withdrawal will be sent to their Polito mailbox). To enrol in the new programme, students must go to their personal page of the Teaching Portal and log in to the Apply@polito platform using the Student Number they received when they enrolled in the first programme.

- enrol in the degree programme and declare on the Apply@polito platform that they also want to enrol in another programme (double enrolment) for which they have taken the admission test at Politecnico (see art.16).

In both cases the process must be completed before the enrolment deadline following the instructions provided in the "Enrolment regulations – A.Y. 2024/25".

2. Applicants who have taken the TIL-I test and are awaiting the results of the admission tests to other universities must enrol at Politecnico before the deadline in order to avoid losing their place. Subsequently, if these applicants find out that they have been admitted to another university, they will be able to request a withdrawal/transfer, or declare that they want to enrol in both university programmes. **Tuition fees previously paid by these applicants will not be refunded under any circumstances.**

### **Art. 16**

During the application process, applicants who are already enrolled at another university are required to enter the following information on the Apply@polito platform (EDUCATIONAL BACKGROUND section): university, denomination and degree class of the programme, list of the exams included in the study plan (passed and unpassed) with number of credits, Scientific and Disciplinary Field and grade (if the exam has already been taken).
4. Applicants referred to in paragraphs 2 and 3 who wish to do a double enrolment are required to take the TIL-I test and be on the ranking list.

If the applicant is on the ranking list for admission to a programme at Politecnico, he/she must confirm his/her intention to enrol directly on the Apply@polito platform by paying the first instalment of the tuition fees (art. 14, paragraphs 1 and 2) before the deadlines, following the procedures for completing the enrolment process, which will be illustrated in the "Enrolment Regulations - A.Y. 2024/25" referred to in art. 14, paragraph 8. Failure to comply with these terms entails permanent exclusion from the admission process. be recognized and/or accredited in the educational system of the country and, at the same time, the certificates must be official qualifications belonging the educational system in the country.

It is up to Politecnico di Torino to verify and decide on the validity of the Foundation Course for the purpose of admission to Politecnico.

- **Applicants who have the following qualifications can enrol at Politecnico:**
- U.S. high school diploma (HSD) with at least 3 Advanced Placement courses (APs) passed with a grade between 3 and 5 in three different subjects related to the Bachelor's degree programme chosen by the applicant (see Annex C for further details)
- or
- U.K. high school diploma: General Certificate of Education (GCSE) and International General Certificate of Education (IGCE), with at least 3 A-levels passed with a passing grade in three different subjects related to the Bachelor's degree programme chosen by the applicant (see Annex C for further details)
