1. In person TIL-D tests are organized in compliance with current legislation on disabilities and specific learning disorders. The procedures to take the TIL-D test for the applicants referred to in this paragraph are illustrated in the present Call. #### **(Applicants who take more than one admission test)**

1. Applicants who have taken more than one admission test for different Bachelor's degree programmes offered by Politecnico may be eligible for enrolment in the Bachelor's degree programme in Design and Communication and at the same time they may be on a waiting list for other programmes (Engineering, Architecture, Planning and Industrial Manufacturing Technologies). In this case, they must reserve their student place or enrol in the programme in Design and Communication before the deadline in order to avoid losing the place. Subsequently, if they find out that they have been admitted to another programme (Engineering, Architecture, Planning and Industrial Manufacturing Technologies) and they prefer to enrol in that programme, they will have to choose one of the following options using the online system:
  - withdraw from the Bachelor's degree programme in which they have enrolled ("withdrawal from studies"), following these steps:
    - a. fill out an online form available on their personal page of the Teaching Portal.
    - b. pay 16.00 Euro for the virtual revenue stamp required for the withdrawal (this amount must be paid from the personal page of the Teaching Portal).
    - c. enrol in the new Bachelor's degree programme after they receive the withdrawal confirmation (an e-mail confirming their withdrawal will be sent to their Polito mailbox). To enrol in the new programme, students must go to their personal page of the Teaching Portal and log in to the Apply@polito platform using the Student Number they received when they enrolled in the first programme.
  - enrol in the degree programme and declare on the Apply@polito platform that they also want to enrol in another programme (double enrolment) for which they have taken the admission test at Politecnico (see art.16).In both cases the process must be completed before the enrolment deadline following the instructions provided in the "*Enrolment regulations – A.Y. 2025/26*".
2. Applicants who have taken the TIL-D test and are awaiting the results of the admission tests to other universities must enrol at Politecnico before the deadline in order to avoid losing their place. Subsequently, if these applicants find out that they have been admitted to another university, they will be able to request a withdrawal/transfer, or

declare that they want to enrol in both university programmes. **Tuition fees previously paid by these applicants will not be refunded under any circumstances.**

**Art. 16

2. Provided that 2/3 of the courses are different among the two programmes, applicants are allowed to enrol in the Bachelor's degree programme in Design and Communication and in one of the following programmes (double enrolment):

Failure to comply with these terms entails permanent exclusion from the admission process. After confirming the intention to enrol in the programme, the previous academic records of the applicant will be sent to the Academic Advisor of the programme who will decide on the possible recognition of previously earned credits.
5. As per the "Procedures for entry, stay and enrolment in higher education programmes of students requiring visa - ay. 2024/2025" published at <https://www.universitaly.it/studenti-stranieri>, international students requiring visa are not allowed to enrol in two Bachelor's degree programmes in Year 1 (double enrolment) since the Universitaly portal only allows students to enrol in one programme at one Italian university.
