- **Friday 9th May 2025** for non-EU applicants living abroad and requiring visa;
- **Friday 29th August 2025** for EU applicants and Equivalent applicants.

4. Payment methods are the following:
   a. credit cards (or other payment methods available on the PagoPA platform) generating **immediate payment and registration confirmation;**
   b. pre-printed notice of payment (MAV on the PagoPA platform), generating a **deferred payment.** In this case the applicant's successful registration for the test will be confirmed after Politecnico receives the payment confirmation from its bank. If an applicant does not pay by the deadline indicated in the notice of payment, the registration for the test will not be confirmed.

5. We recommend all applicants to start the above-mentioned procedures well in advance of the deadlines in order to avoid that possible technical problems may hinder to complete the process.

Art. 5
(How to register for and take the TIL-I test – applicants with disabilities or with Specific Learning Disorders

1. In person TIL-I tests are organized in compliance with current legislation on disabilities and specific learning disorders. The procedures to take the TIL-I test for the applicants referred to in this paragraph are illustrated in the present Call. Applicants can request more information on the special arrangements provided to applicants with disabilities and specific learning disorders to the Special Needs Unit of Politecnico di Torino (https://www.polito.it/en/education/services-and-life-at-politecnico/welcome-inclusion-and-support/inclusive-teaching)by sending a ticket thought the Ticketing Support System.
   In particular, for organizational purposes:
   – applicants with disabilities or with an invalidity certificate (art. 16 of Law no.104/92) must present **a valid certificate issued by the local medical board specifying the type of disability and/or the degree of invalidity** at least 15 days before the TIL-I test date.
   – applicants with disabilities or certified specific learning disorders (SpLD), referred to in Law no. 170/2010, must present **a valid certificate issued not later than 3 years ago (if the certificate was released before turning 18 years old) by the Italian Health Care System (SSN) or by a specialist or by an health care facility recognized by the Italian system.** The certificate must be presented at least 15 days before the TIL-I test date.
   – applicants with disabilities or specific learning disorders (SpLD) who reside abroad and intend to request special arrangements for the TIL-I test must present a certificate of disability or SpLD issued in their country. These documents must be official documents stamped by the issuing institution, signed by an official of the institution and written in one of the following languages: Italian, English, French, Spanish. For documents written in other languages, applicants must provide both the original document and its translation into Italian or English in a single file. The university bodies in charge of examining the above-mentioned certificates will verify if the foreign documents provide evidence of a disability or a SpLD accepted by Italian law.

2. Applicants with a valid certificate have the right to get extra time to complete the test (up to 30% extra time for applicants with SpLD, up to 50% extra time for applicants with disabilities) and are allowed to use a non-programmable calculator.

3. Applicants who need other kinds of arrangements (such as the help of a tutor to use the PC for applicants with visual impairment or with upper limb motor impairment, or the help of a sign language interpreter) must inform the Special Needs Unit by ticket with

adequate prior notice and in any case no later than 15 days before the test. Considering that organizing such special arrangements requires time, late requests may not be considered.

4. To make the TIL-I tests more accessible, applicants can make use of the "ReadSpeaker" to listen to the audio descriptions of the texts. Applicants are required to use their own devices (headphones with USB port). Applicants should also bring their own calculator.

5. Applicants referred to in this article must **upload their certificate of disability/ SpLD to the Apply@polito platform** ("Personal information" section)**no later than 15 days before the date of the TIL-I test.**

6. The Special Needs Unit of Politecnico di Torino will check the certificates which must comply with the requirements listed in paragraph 1.

Art. 6
(TIL-I contents)

1. The TIL-I test is an individual test, available in English and Italian, which is different for each applicant. It is made up of automatically and randomly selected computer interface questions. All tests have an equivalent level of difficulty.

2. The TIL-I test consists of 42 questions, divided into 4 sections, with a predetermined number of questions to be finished within a pre-set time:
   - 16 Math questions in 36 minutes
   - 10 Reading Comprehension and Logical Reasoning questions in 20 minutes
   - 10 Physics questions in 22 minutes
   - 6 Basic Technical Knowledge questions in 12 minutes

   The total time for the TIL-I test is set at one hour and thirty minutes.

   Each question has 5 possible answers marked with the letters A, B, C, D, E, only one of which is correct.

Art. 7
(Test evaluation and admission thresholds)

1. The result of each individual test is determined as follows:
   - 1 point for each correct answer
   - 0 points for each unanswered question
   - A penalty of 0.25 points (-0.25) for each incorrect question

   The score is converted to hundredths and rounded up to the second decimal position.

   At the end of the test, applicants will be able to see their score on the screen. Moreover, the test result will be available in the applicant personal page of the Apply@polito platform.

2. Applicants, including applicants admitted to Politecnico, who score less than 4,8/16 in the Mathematics section (which corresponds to less than 30% of the maximum score for the section)will have to fulfil some supplementary academic obligations (in Italian, *Obblighi Formativi Aggiuntivi - OFA*). In particular:
   - they will be invited to attend tutoring math classes during Year 1;
   - they are required to attend a course called «C.I.A.O. - *Corso Interattivo di Accompagnamento Online*» (online interactive support course). This course is normally offered in the week before the beginning of classes. It seeks to help applicants fill in the gaps in their Math knowledge through specific online tutoring sessions.

     More details on this course will be available in the applicant's personal page of the Apply@polito platform, under the "TIL-I" section.

   The Student Guide and the Teaching Regulations of each Bachelor's degree programme explain how students can fulfil their OFA.

3. The **minimum thresholds for being included in the ranking lists** are the following:
   - **30/100** for admission to the **Bachelor's degree programmes of the Engineering area.**

- **a score greater than zero (0)** for admission to **the Professional Bachelor's degree programme in Industrial Manufacturing Technologies.**
4. The **guaranteed admission threshold** is **60/100.** This score enables applicants to enrol in the Bachelor's degree programme they have chosen as their first preference.

Art. 8
(Cases in which the test is declared invalid)

1. During the in-person test applicants must abide by the following conduct rules, otherwise the test may be declared invalid:
   - be absolutely silent during the test, except when they need to ask a question to test supervisor.
   - exclusively make use of the blank sheets of paper and the pen/pencil provided by Supervision Committee;
   - it is forbidden to make use of personal materials such as sheets of paper, notebooks, notes, calculators, earphones or headphones (except for applicants entitled to extra time – art. 5) or other materials including mobile phones and smartwatches which **must remain switched off** at all times and must be placed on the desk; moreover, in compliance with art. 13 of D.P.R. 487 of 1994, "if the mobile phone emits any kind of sound during the test (alarms, wake up alarms, vibrations or other), the applicant will be invited to leave the classroom and will be excluded from the selection process with no exceptions".
2. In the event that the test is declared invalid for infringement of the conduct rules referred to in the previous paragraph, the applicant is not entitled to any refund of the test registration fee. If a test is declared invalid due to incorrect behaviour (see art. 8), the test will in any case count towards the three possible attempts.

Art. 9
(Progetto Orientamento Formativo)

1. Applicants who have taken part in the Project "Progetto Orientamento Formativo" and are eligible to take the admission test can choose to take it in one of the sessions listed in the table of art. 3 without paying the registration fee.
2. If these applicants want to retake the TIL-I test, they are allowed to retake it 2 more times. In this case they must pay the registration fee in full (art. 4, par. 3). Politecnico will consider the **highest score** obtained by the applicant in all the tests**.**
3. Applicants who are participating in the "Progetto Orientamento" must strictly abide by the general procedures illustrated in this Call.

Art. 10
(TIL-I results and date of publication of the ranking list)

1. The TIL-I results are divided in two groups (EU/equivalent applicants and non-EU applicants requiring visa) and they are made public through the publication of:
   - the list of the applicants who have scored higher than or equal to the guaranteed admission threshold (art. 7, par. 4)). This score enables applicants to reserve their student place/enrol in the Bachelor's degree programme chosen as their first preference. This list will be published **after each TIL-I session.** Successful applicants will be able to reserve their student place/enrol only after the test has been checked against irregularities by the Central Committee within three working days of the test date; if the test is declared invalid, the applicant will receive a mail (pec);
   - a merit-based ranking list for each Bachelor's degree programme for the allocation of residual student places. This ranking list includes the applicants who are exempted

from taking the admission test (art. 13, par. 1) and the applicants who have scored higher than or equal to the guaranteed admission threshold.

The ranking lists will be published on:

a) **Tuesday 20th May 2025** for non-EU applicants residing abroad and requiring visa

b) **Thursday 4th September 2025** for EU applicants and Equivalent applicants.

Please note that applicants will be included **exclusively in the ranking lists of the Bachelor's degree programmes that they have selected during the application process** on the Apply@polito platform.

2. The above-mentioned ranking lists will be published in the online University Bulletin (Albo online) and/or at this link Calls for applications.

3. The "Enrolment regulations – A.Y. 2025-26" - which will be published on the university website **by 27th March 2025** (enrolment opening date) - will illustrate the cases in which applicants need to reserve their student place before enrolling in a Bachelor's degree programme. The "Enrolment regulations" will be published **by Thursday 27th March 2025** (enrolment opening date) on Polito website in the "**Calls for applications, Regulations and Ranking lists** "**section.**

Art. 11
(List of applicants who scored higher than the guaranteed admission threshold and ranking lists)

1. The applicants who have scored higher than or equal to the guaranteed admission threshold are entitled to reserve their student place /enrol in the programme chosen as their first preference following the order of the ranking list.

2. The ranking lists are made with the following criteria:
   a. there is a separate ranking list for each Bachelor's degree programme;
   b. applicants are ranked in descending order based on their TIL-I score;
   c. in case of equal ranking, the score obtained in the individual sections that make up the TIL-I test shall prevail, considered in the following order: Mathematics, Reading comprehension and Logical Reasoning, Physics and Basic Technical Knowledge. In case of a further equal ranking, the younger applicant will be chosen.

3. The ranking lists classify prospective students into the following categories:
   - ENROLLED STUDENT WITH INTERNATIONAL CERTIFICATE: a student who has got a valid international certificate (see art. 13, par. 1) and has already enrolled;
   - ASSIGNED STUDENT WITH INTERNATIONAL CERTIFICATE: a student with a valid international certificate(art.13, par. 1) who **MUST** reserve his/her student place/enrol in the Bachelor's degree programme assigned to him/her before the deadline for the update of the ranking list (see art. 14);
   - ENROLLED STUDENT: a student who has reserved his/her student place or has completed the online enrolment process (see art. 14);
   - ASSIGNED STUDENT: a student who **MUST** reserve his/her student place or enrol in the Bachelor's degree programme assigned to him/her before the deadline for the update of the ranking list (see art. 14); failure to reserve the student place/enrol by the deadline will result in the allocation of his/her place to the next applicant on the ranking list – **therefore, failure to reserve one's student place/enrol by the deadlines of art. 14 entails permanent renunciation of the place.**
   - STUDENT ASSIGNED TO ANOTHER PROGRAMME: when an applicant is on various ranking lists and is ASSIGNED to the first programme with vacant places among the programmes chosen during the application process. In this case, his/her status on the ranking lists of the other programmes is ASSIGNED TO ANOTHER PROGRAMME;
   - BOOKED STUDENT: a student who can reserve his/her student place/enrol in a programme that is not the programme of his/her first preference. At the same time, this student may also be on the waiting list for one or more programme/s with higher preference based on the order of preference that he/she has expressed during the application process.
   In this case, the student **CAN** either:

11

- reserve his/her student place and enrol in the programme that has been assigned to him/her and automatically give up the other preferences; or else,
- wait for the next offers of admission after the next update/s of the ranking list.

If the applicant does not reserve his/her student place, Politecnico will consider that he/she intends to wait for the next offers of admission after the next update/s of the ranking list.

- STUDENT ON WAITING LIST: a student who has not been offered a place in any Bachelor's degree programme chosen during the application process, but could be offered a place in a degree programme that is not filled up in the next call/s if another student with a better score on the ranking list decides to renounce the right to enrol. This student must wait for the next offers of admission after the next update/s of the ranking list.
- WAITING LIST RENUNCIATION: a student who has explicitly renounced his/her right to be on the waiting list (art. 12, par. 3).
- ENROLMENT RENUNCIATION:
  - a student who has been ASSIGNED a place but has failed to reserve his/her student place / enrol by the deadline;
  - a student who has ENROLLED in a programme but has withdrawn from it before the closing date of the ranking list/ before the update of the ranking list referred in art. 12, par. 4 and in art 14, par. 1.
- NOT ADMITTED STUDENT DUE TO UNFULFILLED LANGUAGE REQUIREMENTS: a student who has correctly reserved his/her student place but is not allowed to enrol since he/she does not meet the language requirements illustrated in Annex B to this Call.
- NOT ADMITTED STUDENT: a student who has not reached the minimum admission threshold.
- NOT ADMITTED STUDENT DUE TO FILLED UP PROGRAMME: a student who cannot be assigned a place because the Bachelor's degree programme is filled up (as per Annex A);
- NOT ADMITTED STUDENT DUE TO CLOSED RANKING LISTS: a student who has not been admitted since the ranking lists were already closed when he/she decided to enrol (see art. 12, par. 4).

Art. 12
(How the ranking lists are updated)

1. The applicants included in the ranking lists with the ASSIGNED status will be offered a place based on their preferences, starting from the first preference and within the limit of available places, using the following criteria:
   a. if there is a place available in the programme that the applicant has chosen as his/her first preference, the applicant is offered a place in that programme (ASSIGNED student); his/her position on the ranking lists of the programmes of lower preference will not be calculated.
   b. if the applicant's first choice is not available, the next choices are taken into consideration, until a programme with at least one available place is identified.
   At this point, the applicant can choose between two options:
      - enrol in the programme assigned to him/her. In this case, his/her status in the ranking lists of the other programmes is ASSIGNED TO ANOTHER PROGRAMME;
      - wait for the next updates of the ranking lists and see if new places become available in the degree programmes for which he/she has a BOOKED status.
   c. If all programmes with higher preference are filled up, the applicant will be ASSIGNED to the next programme with vacant places; In this case, his/her status on the ranking lists of the other programmes is ASSIGNED TO ANOTHER PROGRAMME.
   d. Considering that each Bachelor's degree programme is capped to a predefined number of student places, offers of admission will be made to the applicants who

have obtained the best scores in the TIL test until all places are filled up. For this reason, applicants who have not reached the admission threshold referred to in art. 7, par. 4 may not be admitted to any of the programmes chosen during the application process. In this case, depending on the TIL score, these applicants may be given the status of STUDENT ON WAITING LIST or NOT ADMITTED STUDENT DUE TO FILLED UP or – on the closing date of the ranking lists - NOT ADMITTED STUDENT DUE TO CLOSED RANKING LISTS.

2. Allocations of places to the applicants included in the ranking lists are based on the updates of the ranking lists which depend on the number of students who reserve their place and enrol online before the deadlines of art. 14 comma 1.

3. The applicants included in the ranking lists who are no longer interested in enrolling at Politecnico di Torino and **intend to renounce their right to be on the waiting list**, are kindly invited to communicate this decision to Politecnico through the Apply@polito platform; **when an applicant renounces his/her right to be on the waiting list, he/she irrevocably gives up his/her position on the ranking list**; therefore his/her student place is assigned to the next applicant on the ranking list.

4. The **ranking lists will be closed** on:
   a. Friday 27th June 2025 for non-EU applicants residing abroad and requiring visa;
   b. Tuesday 21st October 2025 for EU applicants and Equivalent applicants;
Enrolment will no longer be possible after the closing date of the ranking lists.

Art. 13
(Exemptions from the TIL-I test)

1. Upon specific request, applicants may be exempted from taking the TIL-I test if they have a **SAT certificate**, **recognized as equivalent to passing the TIL-I test** (score equal to or higher than the guaranteed admission threshold) according to the following specifications:

Certificate	Required scores
SAT	SAT (section "Evidence-Based Reading and Writing and Math" with a minimum score of 650 points in each section). Upon registration for the SAT test, applicants must ask the Examination Board (College Board) to automatically send the certificate to Politecnico di Torino (institution code: 7679)

2. To be exempted from the TIL-I test, applicants are required to:
   – Fill out the specific section on the Apply@polito platform with the details of the certificate **not later than Monday 7th April 2025**. The **outcome** of the verification process will be communicated via e-mail by **Thursday 24th April 2024.**
   – ask the Examination Board (College Board) to send the certificate to Politecnico di Torino for verification by **Monday 7th April 2025**.

3. Applicants with an Italian university degree included among those listed in Annex D are exempted from taking the TIL-I test. These applicants are required to enter the information on their academic degree on the Apply@polito platform.

4. The applicants who have forfeited from studies or will incur in forfeiture (according to art. 19, par. 1) are exempted from taking the TIL-I test. The exemption does not apply to the **Bachelor's degree programme in Industrial Production Engineering or in the Professional Bachelor's degree programme in Industrial Manufacturing Technologies** (compulsory admission test).

In this case, they must reserve their student place or enrol in the assigned programme before the deadline in order to avoid losing their place. Subsequently, if they find out that they have been admitted to another programme (Architecture, Design or Planning) and they prefer to enrol in that programme, they will have to choose one of the following options using the online system:

     a. fill out an online form available on their personal page of the Teaching Portal.
     b. pay 16.00 Euro for the virtual revenue stamp required for the withdrawal (this amount must be paid from the personal page of the Teaching Portal).
     c. enrol in the new Bachelor's degree programme after they receive the withdrawal confirmation (an e-mail confirming their withdrawal will be sent to their Polito mailbox). To enrol in the new programme, students must go to their personal page of the Teaching Portal and log in to the Apply@polito platform using the Student Number they received when they enrolled in the first programme.

Applicants who have taken the TIL-I test and are awaiting the results of the admission tests to other universities must enrol at Politecnico before the deadline in order to avoid losing their place. Subsequently, if these applicants find out that they have been admitted to another university, they will be able to request a withdrawal/transfer, or declare that they want to enrol in both university programmes. **Tuition fees previously paid by these applicants will not be refunded under any circumstances.**
