

LIST OF ENGINEERING COURSES NOT AVAILABLE IN A.Y. 25/26

mobility for courses, course and final project

From Step #3 part 1 guidelines, page 2:

There are some courses that have a limited capability of places and there are also courses that are not open to exchange students. These courses vary each semester and depend on an evaluation that the Student Careers Unit does each semester according to the class organization. Be prepared to have more than an alternative in case you pick courses belonging to these categories.

Code	Name
SQS	Additive Manufacturing Systems and materials
USD	Aerosol technology and air quality
01QYT*	Affidabilità, sicurezza e manutenzione per l'azienda
TXX	Applied data science project
IHI	Automazione dei sistemi meccanici
SQQ	Design of Lightweight and composite structures
01OQD*	Evoluzione dei veicoli aerospaziali
TZR	Experimental methods and laboratory testing for civil engineering applications
OPH	Experimental methods for energy and propulsion systems
02JSKOV	Human Computer Interaction
02JSKSM	Human Computer Interaction
01QZQ*	Ingegneria nelle terapie medico-chirurgiche
02JNU*	Introduzione alle nanotecnologie
UDP	Laboratorio sperimentale prove e misure per l'ingegneria civile
02BNY*	Matematica applicata
BPG	Meccanica del veicolo
VJE	Mechanical systems automation
IHB	Modellazione funzionale delle macchine
SQL	Motor vehicle mechanics
01UEG*	Open and virtualized networks
03BXY*	Processi dell'industria alimentare
01SAQ*	Selezione e progettazione dei materiali per applicazioni ingegneristiche (SPMAI)
01TWPXW	Signal Processing and Wireless Transmission Lab
01TWBPG	Signal Processing and Wireless Transmission Lab
UDT	Soluzioni di grafica 3D in applicazioni biometriche
RXF	Terapie termiche
VKE	Transport economy and technique
OAG	Vibration mechanics
01TVKYJ	Wind and ocean energy plants
01TVKYL	Wind and ocean energy plants
