STUDENT VIRTUAL ACCOUNT

When there are older debts to be paid off, any payment will cover those older debts first.

Example

If there are two separate debts, e.g., the first one of 10€ due on 19 December and the second one of 20€ due on 15 April, and you make a deposit of 20€:

- 10€ will be used to cover the least recent debt, the one due 19 December
- the remaining 10€ will be used to partially cover the most recent debt, the one due 15 April: therefore, an additional payment of 10€ must be made.
