## Politecnico di Torino at a glance

First Italian School for Engineers, from 1859 Politecnico di Torino has been training engineers, architects, designers and urban planners involved in all societal changes and innovations.

In nowadays ever-changing global scenario, given disruptive phenomena such as globalization, climate change, cutting-edge and increasingly pervasive technologies, Universities evolve in order to produce their tangible impact. PoliTO thus evolved into an inclusive University, permeable to the labour and industrial realities, playing a key role in innovation and lifelong learning, to become a growing driving force for the sustainable development of society.

Politecnico di Torino was among the first Universities believing in internationalization, which, thanks to huge investments, assumed a leading role in its strategic policies.

A truly international and multicultural environment, with more than 8,000 foreign students (21% of the total number), from more than 120 Countries. The main steps were the enhancement of English-taught study offer and international mobility, together with the creation of an internationalization area focused on attracting international students and researchers, the participation to joint research projects and programmes, and the institution of international centers.

Politecnico di Torino aims today at improving its impact on European and international policy making, contributing as a leading actor to the research environment in the most relevant technological fields, thanks to a close collaboration with worldwide companies and institutions.

## XIII Dialogue Agenda

The XIII Dialogue will focus on Unite! future and prospects, featuring strategic meetings for its governing bodies, SURE! students and working groups.

The programme includes plenary meetings and parallel discussions specifically dedicated to Unite! future, where participants will discuss and collaborate on long-term strategies and upcoming funding opportunities.

Community engagement will be emphasised through social activities, and dedicated dinners—most notably the traditional Unite! Dinner Party. Parallel Unite! Widening and aUPaEU meetings will also be included.

For more details, visit the [Agenda section on the website](#) and browse the detailed programmes below.

### The future vision plenary sessions

The Future Vision plenary sessions are forward-looking strategic discussions aimed at sharing the ideas and views of the whole Unite! community on the medium- to long-term role of our Alliance in the evolving landscape of European and global higher education. The SURE! Student Association will lead an ambitious future session open to any interested participant. It is hoped that these discussions may help us put the currently in preparation bridge funding short-term/two-year proposal in the proper perspective.

*All members of the Unite! community are strongly encouraged to participate in and contribute to all Future Vision plenary sessions, given the broad scope and relevance of the topics addressed, as well as the opportunity they provide to hear and contribute discuss diverse perspectives, and to collectively reflect on Unite!'s long-term strategy.*

## **Agora and Institutional Transformation – AUPaEU Focus Group**

*Room R4 - aUPaEU*

The focus group, organized by the aUPaEU project, will examine how the Unite! Agora digital platform can support institutional transformation within the Unite! Alliance in alignment with the European Research Area (ERA) priorities. The session will present Agora services and engage participants in a guided discussion to collect feedback on improving access to and sharing of infrastructures and resources, as well as research career attractiveness and talent circulation.

## **Building collaborative Unite! courses: a teachers' workshop**

*Room 11I – Collaborative Courses support WG*

Interactive training on designing collaborative international courses (blended/online). Covers key benefits and challenges of cross-institution teaching, with real Unite! case studies. Gives practical tools and support info to help create new courses aligned with Unite! strategy and EU job-market needs.

Please register by Monday 09/02 at

<https://forms.office.com/e/m1bZVpv2fv>

## **PDCA in Practice – A Hands-On Training**

*Room R1B - QM Team \*from 11:00 to 12:00*

This interactive training explores the practical use of the PDCA (Plan–Do–Check–Act) cycle to improve everyday work. Participants apply PDCA to their own challenges and leave with a simple, ready-to-use improvement approach.

## **Creating impact within Unite! From ripples to waves**

*Room 5I – Cm9*

This interactive workshop is open to all Uniter! to help them understand how they can transform the outputs of their activities into impactful results. Through reflection and the sharing of results, participants will work in groups to go through the process of converting immediate outputs (“dropping stones into water”) and identifying the first ripples, to achieve longer-term transformative results (“waves”). Together, we’ll work on connecting these effects to the goals and mission of Unite!, to create impactful stories using the Impact Toolkit as a guide.

## **Road to Institutional Politeness Workshop**

*Room 3I – Cm3*

The workshop builds on previous activities and the Road to Institutional Kindness podcast, focusing on non-violent communication, politeness and kindness. It examines how politeness and kindness are understood across cultural contexts and shaped by patriarchal culture and pretty privilege. The workshop combines a theoretical section with reflective exercises and a participatory discussion aimed at collective, action-oriented thinking.

Please register at

## **Sustainability at POLITO: The Campus as a Living Laboratory**

*Room R3B + campus tour (only offsite) – Cm8*

An overview of the sustainability initiatives at Politecnico di Torino, presented as a living laboratory, by Prof. Patrizia Lombardi, Vice Rector for Sustainable Campus and Living Lab. From the Green Team governance structure to on-campus actions, highlighting the key role of students and staff.

## Additional details

### Lunch and coffee break

All lunches and coffee breaks, beginning Tuesday, February 10th, will be provided on the ground floor of the R Classrooms Pavilion.

The coffee break of Wednesday, 11 February, will be enriched by our now traditional Language Cafè! Everyone in the Unite! community is warmly encouraged to participate.

### Water Refill Points

Water refill points are conveniently located throughout the campus, allowing you to easily refill your bottle at any time. You can find these refill stations in several areas, including the R Rooms and I Rooms, ensuring you have access during the entire event. Follow the map for directions!

### Unite! Dinner Party

The plenary dinner on Wednesday, February 11th, at 8 p.m. will take place at the Foyer del Toro in the renowned Teatro Regio, Torino's celebrated opera house, located at Piazza Castello 215. **Do not forget to bring your badge!**

### Social Activities

## Accessibility

All locations have been carefully chosen to ensure maximum accessibility for every participant. Our team is available to assist you with any additional needs. If you require support, please contact our local CM3 representatives at [life.equality@polito.it](mailto:life.equality@polito.it).

## Sustainability

In line with Politecnico commitment to sustainability and inclusive practices, the XIII Unite! Dialogue has integrated specific sustainability criteria into its event planning. For the first time, the event adopted the PoliTO checklist, developed to support organisers in embedding environmental sustainability and social inclusion throughout the entire event lifecycle. We invite all participants to avoid resources waste, e.g. returning your lanyards at the end of the event. For further information, please contact [sostenibilita@polito.it](mailto:sostenibilita@polito.it).

## Technicalities

All event rooms will be well-equipped to facilitate interactive meetings. IT people will be available for technical support. We suggest bringing your personal laptops and, if you work with a Mac, your adaptors.

## Cultural insights

Torino is the **capital of the Piedmont region** and an important industrial and cultural center in northern Italy. Its ultimate foundation occurred around 28 BC, when Octavian Augustus made a second colony with the name of Augusta Taurinorum. The castrum (the current “Quadrilatero”) developed with an urban layout typical of Roman cities that can still be seen. From 1563, it was the capital of the Duchy of Savoy, then of the Kingdom of Sardinia ruled by the Royal House of Savoy and finally the first capital of the unified Italy.

In the early 20th century, in addition to being one of the world’s **industrial** centers, Torino was also a **pioneer of cinema**; in fact, the Turin-based companies Ambrosio Film and Itala Film, along with Rome-based Cines, led the Italian film industry between 1903 and 1908. Through the beginning of the 20th century, Torino was known as the “Capital of Cinema”: 1400 films were produced in the city, and the 1911 Universal Exhibition in Torino could almost be considered the first international film festival ever.

Torino is well known for its **architecture**: Renaissance, Baroque, Rococo, Neo-classical, and Art Nouveau are some of the architectural styles you can see around the city. In 1997, part of Torino’s historic center was inscribed on the World Heritage List.

The city is home of the world-famous **Egyptian Museum** and of the **National Museum of Cinema**, housed in the Mole Antonelliana, the city’s symbol. Other important Museums not to be missed are the National **Museum of the Italian Risorgimento**, **GAM-Gallery of Modern and Contemporary Art**, the **Sandretto Re Rebaudengo Foundation**, **MAUTO - The National Automobile Museum**, and **Camera – Italian Centre for Photography**.

Torino is known for its **cultural heritage**, from museums to Royal Palaces and castles. The city offers a rich variety of **cultural events** like the Festival of Chocolate, the International Book Fair, the Salone del Gusto (Slow Food festival), and the Art Week (contemporary art festival, held in November). In Torino you can taste delicious dishes from the best of Piedmont tradition, like Grissini (breadsticks), Agnolotti (local dumplings), Bagna Caoda (hot sauce made from garlic, anchovies and olive oil), Bicerin (hot drink made with coffee, cream and chocolate), Gianduiotto (hazelnut chocolate) and gelato (ice-cream). You can experience the excellent Piedmont red and white wines made from the exquisite grapes grown in the hills of the region. And don’t miss the beloved ritual of Aperitivo, a moment when people meet for a drink accompanied by appetizers before dinner (often, it evolves into a dinner in itself!).

# Traveling to Torino

## By train

Torino has two main railway stations (Porta Nuova and Porta Susa), both located downtown and well connected with high-speed trains operated by Trenitalia and Italo.

### **Main domestic high-speed train routes:**

Milan – Turin (Frecciarossa, Italo), ~1 hour

Connections from Milano Centrale and Milano Porta Garibaldi to Torino Porta Susa and Torino Porta Nuova.
