

JOINT MASTER'S DEGREE
Energy and Nuclear Engineering - DecentralizedSmart Energy Systems DENSYS2
Energy and Nuclear Engineering - Hydrogen Systems and Enabling Technologies HYSET
Materials engineering for industry 4.0 - Manufacturing 4.0 by intElligent and susTAinable technologies META 4.0
Chemical and Sustainable Processes Engineering – Multiphase Systems for Sustainable Engineering -MULTIPHASE
Energy and Nuclear Engineering SELECT - Environomical Pathways for Sustainable Energy Systems

INTERATENEO
Industrial Chemistry for Circular and Bio Economy
Design per il Sistema Alimentare e la Sostenibilità
Food Tech for Ecological Transition
