legal matter.

1. PURPOSE

Politecnico di Torino promotes international mobility as a key element in the academic and personal development of its students. Undertaking study periods abroad represents a valuable opportunity to engage with different cultural and scientific contexts, enriching the academic path with experiences of a global scope.

For the 2026/27 academic year, the University is renewing its commitment in this regard through this Call for Applications, which provides for the award of scholarships to enable students to undertake their Master's thesis at institutions abroad. The Call, published annually, is divided into three application periods.

As part of the Politecnico di Torino's internationalisation strategy, Japan has been recognised as one of the target regions. The implementation of these initiatives is led by the Japan Hub (<https://www.polito.it/en/polito/an-international-university/politecnico-around-the-world>), Politecnico di Torino's base in the Far East, which was established with the aim of coordinating, promoting and strengthening the University's activities in Japan in the fields of teaching, research and its third mission.

In order to encourage student mobility to Japan, a catalogue of thesis proposals at partner universities in Japan has been compiled, and funds have been earmarked specifically for mobility to Japan.

2. ELIGIBLE ACTIVITIES

2.1. Types of eligible activities

The mobility programme is intended as a period for the development of the Master's thesis at a Host Institution abroad, this activity must be carried out in person for the entire duration of the funded mobility period.

It is the student's responsibility to identify the thesis project and the related host organisation. The student must agree upon the programme of activities in advance with their supervisor at Politecnico di Torino and take the initiative personally and independently to contact the host organisation in order to secure its agreement to accept the proposed thesis project.

2.2. Eligible destinations

Both public and private organisations abroad (universities, companies, research or training centres) are eligible, with the exception of those in Italy, provided they are able to ensure that the research activities are carried out in line with the thesis's learning outcome. In view of the current international situation, the following countries are excluded for security reasons: Israel, Russia and Ukraine.

Candidates are, however, advised, when choosing their destination and whilst abroad, to constantly monitor geopolitical developments and to take all necessary measures to ensure

their own safety. To this aim, it is recommended that they consult the relevant official websites in advance, such as 'Viaggiare Sicuri' (www.viaggiare Sicuri.it) and 'Dove Siamo nel Mondo' (<https://www.dovesiamonelmundo.it/home.html>), and that they observe any health precautions required by the destination Country.

 To facilitate the choice of a destination in Japan, a catalogue with possible research topics and thesis titles is available on the Japan Hub pages (<https://www.polito.it/en/polito/an-international-university/politecnico-around-the-world/japan-hub/academic-research-topics-catalogue-japan>), including the names of Supervisors and host partner universities.

After consulting the catalogue, interested candidates must first contact the Supervisor indicated on the dedicated page (<https://www.polito.it/en/polito/an-international-university/politecnico-around-the-world/japan-hub/academic-research-topics-catalogue-japan>), before submitting their application for the scholarship, in accordance with the procedures indicated in this Call.

Please note that the catalogue is not exhaustive compared to the range of possible topics and does not confer any preferential status for the allocation of scholarships.

Candidates who independently find potential research topics and thesis titles with a destination in Japan outside the catalogue may apply for the allocation of scholarships.

2.3. Mobility period and duration

The start dates of the mobility are indicated in Annex A. The mobility period cannot begin after 31 December 2027.

The mobility period shall be continuous and shall last for a minimum of 1 calendar month to a maximum of 6 months.

3. SCHOLARSHIP FUNDS

The funds available for the award of scholarships amount to €737,327.19, representing a cost to the University, inclusive of IRAP (8.5%), of €800.000, to be drawn from the University's own funds and from funds deriving from ministerial co-financing.

The total amount, including the funds for scholarships reserved for Japan as referred to in Article 8.1, is allocated across the three application periods defined in Annex A as follows: 35% for period 1, 35% for period 2, 30% for period 3, with any remaining funds from one period carried over to the next.

4. SCHOLARSHIP AMOUNT

The scholarship amount depends on the duration of the mobility period with monthly amounts divided by macro geographical areas as indicated in the table below:

Amounts gross of taxes according to current tax regulations

EUROPEAN COUNTRIES <i>Including Switzerland and the United Kingdom.</i>	€ 470/month
NON-EUROPEAN COUNTRIES	€ 535/month

The scholarship amount is calculated on a daily basis. Scholarship recipients will receive 1/30 of the full monthly amount for each mobility day. The scholarship amount is rounded to the nearest euro.

The number of eligible mobility days is determined as follows:

- the duration of all months is set at 30 days regardless of the actual calendar length of the month (28, 29, 30, 31 days).
- the total number of mobility days is calculated as follows: 30 days for each full month + the actual number of mobility days of incomplete months.

Example: mobility to France from 16/10 to 02/02

Number of days:

15 days in October (from Oct. 16 to the conventional 30th) + 30 days x 3 full months (November, December, January) + 2 days in February = 107 days

Scholarship amount:

$\text{€ } 470 / 30 \times 107 = \text{€ } 1,676.33$

Scholarships are subject to taxation by the recipient according to current tax regulations.

The *Tesi su Proposta* scholarship can be cumulated with other scholarships and with any contributions paid to the recipient directly by the Host Institution.

Recipients of other scholarships or contributions are required to check the compatibility of the *Tesi su Proposta* scholarship with their funding organization.

5. APPLICATION REQUIREMENTS

Applicants enrolled in a Master's degree programme at Politecnico di Torino in a.y. 2025/2026 or in a.y. 2026/2027 ("full time" or "part-time") may apply for this Call for applications. Applicants must have earned the following minimum number of credits by the dates indicated in Annex A:

- 1° application time frame: 40 CFU
- 2° application time frame: 40 CFU
- 3° application time frame: 60 CFU

Exams passed and recorded in the students' transcript by the dates specified in Annex A shall be taken into consideration to verify this requirement.

 If the candidate has been awarded another mobility grant or is currently undertaking a period of mobility, even if for activities other than the thesis, they may apply to this Call for Applications only at the end of the mobility period and only after having submitted all the required documentation for its closure.

The following students CANNOT apply to the present Call:

- students who have been enrolled in a Master's degree programme for more than 4 academic years at the time of application;
- students who have been awarded a mobility grant for their thesis project in the same cycle of studies (es. ERASMUS+ Final Project or Courses and Final Project, PROGETTO SPECIALE ITALDESIGN...);
- students who have been awarded other mobility scholarships from Politecnico di Torino for a period that partially or totally overlaps with the period proposed for this Call;
- students who are nationals or were born in the country where they intend to do the mobility, excluding cases of double nationality;
- students who have renounced a scholarship previously awarded by Politecnico di Torino in the framework of any other Call for Applications in the same cycle of studies without valid reasons;
- students who are doing a mobility at Politecnico di Torino for courses, courses + final project, final project or double degree (*Incoming* mobility students);
- students who are taking part in the TOP-UIC Project and receive a scholarship called "Tuition e Tuition plus";
- students who receive a scholarship under the "Invest Your Talent in Italy" programme;
- students who receive a TOPoliTO scholarship;
- students who receive a scholarship from the Italian Ministry of Internal Affairs for being holders of international protection, in compliance with the memorandum of understanding between the Ministry of Internal Affairs and CRUI signed in Rome on 20 July 2016.

6. DEADLINES AND APPLICATION PROCEDURES

Applications must be submitted by the deadlines indicated in Annex A of the Call for Applications. For each application time frame indicated in Annex A, Politecnico di Torino accepts applications completed and submitted by 11:59 p.m. (Italian time).

For each application time frame, applicants must apply exclusively online:

Before submitting the application for the scholarship under this Call, the student must obtain approval from the Supervisor in the procedure on the Teaching Portal - Career Section - Thesis - Thesis Request as indicated in the Student Guide, by respecting the deadlines published in the thematic calendar – Graduation periods - and following the relative procedure.

Any changes to the 'Thesis Application form' in the Thesis Page must be made before submitting the application for the financial contribution "Tesi su proposta"

The topic of the candidate's thesis must be stated in English on the Thesis Application form and must correspond to the one entered on the application for the financial contribution "Tesi su proposta".

Subsequently, the application for the scholarship must be submitted exclusively online through the following procedure:

- 1) log in to the personal page of the Teaching Portal - "Online services" tab – "Outgoing Mobility" portlet – "Apply for Outgoing Mobility Programmes" - "Tesi su proposta all'estero" and fill out the required fields:
 - start and end date of the mobility;
 - description of the core business of the Host Institution;
 - website of the Host Institution;
 - name of the Tutor at the Host Institution e contact information (e-mail and phone);
- 2) click the 'SUBMIT APPLICATION' button to submit the thesis proposal to the Tutor at the Host Institution and to the Supervisor at Politecnico di Torino. After this operation, the system will:
 - send the application to the Tutor at the Host institution, using the email address indicated in the form, asking him/her to approve it. This approval is required to complete the application process, which will be automatically registered in the system;
 - make the application visible to the Supervisor at Politecnico di Torino on his/her personal page of the Teaching Portal, asking him/her to approve it. This approval is required to complete the application process, which will be automatically registered in the system;
- 3) verify if the thesis proposal has been approved by both Tutors - from the personal page of the Teaching Portal – "Online Services" tab – "Outgoing Mobility" portlet – "Apply for Outgoing Mobility Programmes" - "Tesi su proposta all'estero". In any case, the system will send the following information by e-mail to the student's PoliTO mailbox (S<MATRICOLA>@studenti.polito.it):
 - a final message of successful submission of the application only if the application has been approved by both Tutor and Supervisor;
 - a message if the application has been rejected by either Supervisor or Tutor.

Please note that the application will only be considered complete if it has been approved online by both tutor/supervisor; failure to do so will result in exclusion from the selection process.

The candidate will monitor the status of the proposal's approval by the tutors and, if necessary, take a proactive role in urging the tutors to approve the application by the deadline.

The system allows applicants to modify the thesis proposal throughout the entire application time frame as set out in Annex A. When a student makes a change, the system will cancel any approvals already obtained and will inform the student. On the closing date for application submission, the last proposal must have been approved by both the Tutor and the Supervisor. After receiving both approvals, the thesis proposal will be considered final and sent for evaluation.

Applicants who have troubles in completing the online application exclusively due to malfunctions of the system must report the problem to the International Mobility Division using the "Ticketing Support System" by selecting the topic "OUTGOING MOBILITY - TESI SU PROPOSTA", sub-topic "Application" and sending a ticket with object "APPLICATION PROBLEM". The ticket must be sent by 12:00 (Italian time) on the day following the closing date of each application time frame, under penalty of exclusion from the selection process.

 Please note applying for this Call does not exempt students from meeting the deadlines and conditions for registering for the Final Examination, as indicated in the Student Guide.

7. SELECTION PROCESS AND RANKING LISTS

At the end of each application time frame, Politecnico di Torino will draw up the ranking lists of all applicants and identify the students who are eligible to take part in the selection process in accordance with Articles 2 and 5. Eligible applicants will be assigned a merit-based score. The ranking lists will be processed using an algorithm which calculates a score for each applicant based on merit criteria (weighted average grade and academic progress) - see the Appendix to this Call.

Please note that, for the purposes of drawing up the ranking lists, exams will be considered valid if recorded in the student's transcript before the following deadlines:

Application Time Frame	Deadline for exam registration in the student's transcript
1°	18 July 2026
2°	19 September 2026
3°	20 February 2027

At the end of each application time frame, Politecnico di Torino will draw up a provisional ranking list that will contain the following data:

- student ID numbers of all applicants;
- the evaluation obtained by each applicant (eligible/non-eligible/eligible "with condition");
- for non-eligible applicants: the reason for such evaluation;
- for applicants declared "eligible with condition": the reason for such evaluation and the deadline to drop the provisional condition;
- for eligible applicants: the merit-based score.

Following the publication of the provisional ranking list, applicants may file a complaint which must be submitted by 11:59 p.m. (Italian time) of the deadline indicated in Annex A

exclusively through the "Ticketing Support System" by selecting the topic "OUTGOING MOBILITY - TESI SU PROPOSTA", sub-topic "Application" and sending a ticket with subject "COMPLAINTS FOR PROVISIONAL RANKING LIST" specifying the reason for the complaint. If a complaint is accepted, the final ranking list will be changed accordingly. Any complaint submitted in a different way from those indicated above will be rejected.

The provisional and final ranking lists as well as the list of successful applicants will be published on the web page of the Call for Applications indicated in Article 16 before the deadline illustrated in Annex A.

8. ALLOCATION OF SCHOLARSHIPS

8.1. Award of scholarships – funds earmarked for Japan

There are 26 scholarships available for students to carry out their thesis in Japan, and these will be allocated as follows:

Application period	Number of Scholarships
1°	12
2°	8
3°	6
TOTAL QUOTA	26

For each application period, by the deadlines set out in Annex A, an administrative assignment will be made to award scholarships to eligible candidates in order of ranking list, in accordance with the aforementioned allocation.

The allocation will be based both on the University's algorithm (as set out in Article 7) and on the selection of 'Japan' as a destination. The amount of the scholarships will be determined as set out in Article 4.

The list of scholarship recipients will be published on the Call for Applications webpage specified in Article 13.

Scholarships that are not awarded, or that may become available as a result of withdrawals or failure to sign contracts, will be made available for subsequent application periods, whilst maintaining the restriction on destination.

Any remaining funds earmarked for Japan that have not been allocated during the three application periods will be added to the general resources allocated during the last application period.

Eligible candidates whose destination is Japan and who have not been awarded a earmarked scholarship due to the quota being used up, maintain their position on the ranking list and are eligible, during the same period, for the allocation of scholarships funded from the general resources referred to in Article 8.2. Their application is only forfeited if it is not funded even through those resources.

Such candidates may reapply during subsequent application periods, provided they meet the requirements set out in Article 5; it is therefore possible that their score may differ from that obtained previously.

8.2. Award of scholarships – general funds

Once the scholarships earmarked for Japan have been awarded for each application period, the remaining general funds will be allocated automatically, by the dates set out in Annex A, in accordance with the order of the final ranking list, to eligible applicants who have not yet received funding, until the available funds are used up. The amount of the scholarships will be determined as set out in Article 4, and partial scholarships may not be awarded.

The list of scholarship recipients will be published on the web page of the Call indicated in Article 13.

General funds that may become available as a result of withdrawals or non-signature of contracts will be made available for the following application periods.

Applications from eligible candidates who have not been awarded a scholarship due to the depletion of funds will be considered forfeited.

Such candidates may reapply during subsequent application periods, provided they meet the requirements set out in Article 5, it is therefore possible that their score may differ from that obtained previously.

9. FORMAL ACCEPTANCE OF A SCHOLARSHIP AND WITHDRAWAL

9.1. Mobility contract

Scholarship recipients must sign an online mobility contract. By signing the contract, scholarship recipients confirm their participation in the mobility programme, accept the scholarship and authorize the University to initiate the administrative procedures for the disbursement of the scholarship.

Successful applicants must sign the contract online before the deadlines indicated in Annex A following the instructions received through the Ticketing Support System.

The duration of the mobility established in the contract cannot exceed the duration indicated during the allocation phase and no changes can be made at this stage.

In the event of problems in signing the online contract exclusively due to malfunctions of the system, scholarship recipients must inform the International Mobility Division by sending a ticket through the "Ticketing Support System" selecting the topic "OUTGOING MOBILITY - TESI SU PROPOSTA", sub-topic "Before the mobility". The ticket must have subject "PROBLEM WITH CONTRACT SIGNATURE" and must be sent by 12:00 (Italian time) on the day following the deadline for signing the contract, under penalty of exclusion from the selection process. Anyone who does not accept the grant awarded and does not sign the relevant contract will not be subject to any penalty and may reapply for the scholarship.

Failure to sign the contract by the deadlines will be considered as permanent renunciation to the scholarship.

9.2. Withdrawal

Successful applicants may renounce to take part in the mobility programme and give up the scholarship without any penalty, as provided in Article 11 below. In order to renounce, applicants must fill in the specific withdrawal form referred to in Article 13. The form must be submitted through the "Ticketing Support System", selecting the topic "OUTGOING MOBILITY – TESI SU PROPOSTA", sub-topic "General information". The ticket subject must be "WITHDRAWAL FROM MOBILITY PROGRAMME".

10. SCHOLARSHIPS - TERMS AND CONDITIONS

10.1. Advance payment

Scholarship recipients must communicate the actual start date of their mobility period as soon as they arrive at the Host Institution through the specific procedure available on their personal page of the Teaching Portal ("Online Services" tab, "Outgoing Mobility" portlet - "Declaration of mobility in presence").

Please note that the start date declared by the participant may under no circumstances be earlier than the mobility starting date set for each time frame, as indicated in Annex A. Scholarship recipients will receive the advance payment (50% of the scholarship amount) within 45 working days of the declared start date. Please note that if the departure date changes, the system will recalculate the amount with respect to the end date of the mobility period indicated in the application form

If the declared mobility start date is posterior than the contractual mobility start date, the advance payment will be cautiously calculated on a reduced scholarship amount, determined on a probable mobility duration while keeping the contractual mobility end date.

10.2. Balance payment

At the end of mobility period, scholarship recipients must send the end-of-mobility documents to the International Mobility Division by the deadline (procedures are set out in the mobility contract). Students who intend to graduate immediately after returning from their mobility must submit all the end-of-mobility documents to the International Mobility Division before the deadline for registering for the Final Examination.

In particular, scholarship recipients must obtain the certificate of attendance and the Final Project Assessment from the Host Institution. Both documents must be completed online using the templates available on the student's personal page of the Teaching Portal ("Online Services" tab, "Outgoing Mobility" portlet - "Forms"). Instructions can be found at the end of the document. Scholarship recipients must pay particular attention to the dates entered to this document because they cannot be modified after the certificate is submitted to the International Mobility Division (these dates are the only reference for calculating the balance payment). Politecnico di Torino will not accept any certificate of activities carried out at a Host Institution or in a country other than those indicated in the application form, under penalty of exclusion from the project and reimbursement of any scholarship instalment already received.

The balance payment will be paid to students after their return:

- after they will have had all their return documentation approved by the International Mobility Division;
- after they get their Master's degree (graduation must take place within 6 months or by the second graduation period after the end date of the mobility period).

 It is hereby specified that the six months/second graduation period deadline will be calculated regardless of any extension periods, which will not be considered. In the occurrence of an extension of the stay abroad, the counting of the six months/second useful graduation period will start from the last day covered by the scholarship originally funded and from the period stated in the certificate of mobility.

Students who do not meet these deadlines are not entitled to receive the scholarship balance and must refund any amount already received as an advance. Please note that students who intend to graduate immediately after their return at Politecnico di Torino must hand in all the end-of-mobility documents before the deadline for registering for the Final Examination.

The International Mobility Division will check that all the documentation is complete. It will calculate and pay the scholarship balance, equal to the difference between the actual amount of the scholarship and the advance already received.

If the actual duration of the mobility, as stated in the certificate of attendance, is shorter than that originally agreed upon, the actual amount of the grant will be determined according to the criteria indicated in Article 4 and may be reduced with respect to that specified in the mobility contract. In this case, the scholarship will be recalculated based on the actual number of days stated in the certificate of attendance.

If the actual amount of the scholarship is less than the amount of the advance already paid, the successful candidate will be required to reimburse the difference by the deadline that will be communicated by the International Mobility Division, under penalty of the sanctions referred to in Article 11.

Any change in the mobility activities, including the host country or institution, will not be accepted and will result in being excluded from the competition and the return of any advance payment already received. Any person who fails to meet the aforementioned deadlines will not be eligible to receive the balance of the scholarship and will be required to reimburse any advance payment already received.

10.3 Methods of payment

In order to receive the payment of the scholarship, students must have a bank account (in their name or joint) or a personal prepaid card, in both cases included the SEPA circuit, except for individuals born or residing in embargoed countries. Within the framework of OFAC international measures, individuals born or residing in embargoed countries must have an Italian bank account (in their name or joint) or a personal prepaid card issued by an Italian bank/post office.

There are no other possible payment methods.

Scholarship recipients must enter their bank details (IBAN code) on their personal page of the Teaching Portal – “Online Services” tab – “Tuition Fees and Payments” portlet.

11. PENALTIES

When scholarship recipients are obliged to partially or totally return the scholarship already received and do not refund the amount due within 30 days of the debt notification sent to them by e-mail, they will not be able to make any further academic progress until the debt is settled. The money must be refunded before the date of degree conferral in the event that the student graduates within the 30 days mentioned above. If the refund does not take place within the time allowed, Politecnico di Torino will proceed with the due recovery of the claim.

In the event of false declarations, scholarship recipients will be automatically excluded from the selection process. They may also be referred to the Disciplinary Board and a hold may be placed on their academic progress, on top of further sanctions provided for by the regulations in force.

Statements made during the application process, as well as any documents submitted, may be checked by the University, in accordance with D.P.R. 445/2000 (*Testo Unico delle disposizioni legislative e regolamentari in materia di documentazione amministrativa*). Politecnico di Torino is entitled to request students to show their original documents at the office counter at any time. In this case, students will be invited to present themselves at the office counter by appointment and Politecnico di Torino will verify the truthfulness of their documents.

12. INSURANCE COVERAGE

Any student enrolled at Politecnico di Torino normally benefits from an accident and liability insurance which is extended throughout the period of mobility at the Host Institution.

For further details:

- Accident Insurance: https://www.swas.polito.it/services/polizze/doc_IC.asp
- Public Liability Insurance: https://www.swas.polito.it/services/polizze/doc_RC.asp

The student beneficiary of the scholarship will be able to download from their Personal page of the Teaching Portal the letter addressed to the individual relating to insurance coverage (Accident Insurance and Public Liability Insurance) during the thesis abroad.

All students participating in a mobility programme "Tesi su proposta" are required to make their own arrangements to:

- get adequate health insurance coverage during their mobility in the manner provided by the Host Country;
- get adequate insurance coverage including:
 - travel insurance (including damage or loss of luggage);
 - serious illness (including permanent or temporary incapacity);
 - repatriation for health reasons
 - death (including repatriation of the body).

In compliance with the decisions taken on 11/05/2022, the International Mobility Committee on 17/11/2023 confirmed the recognition of an additional scholarship of €184.33 (before taxes payable by the recipient according to the current tax legislation) to all the beneficiaries of mobility to NON-EU countries who will prove that they have bought an

individual health insurance. For this purpose, students need to log into their personal page of the Teaching Portal – “Outgoing Mobility” portlet – “Health Insurance” tab – and upload their insurance documents.

Please note that searching for and signing an appropriate insurance policy is the sole responsibility of the student without any responsibility of the University.

The disbursement of the above-mentioned additional funds will be made after the payment of the scholarship balance.

13. COMMUNICATIONS AND ADMINISTRATIVE REFERENCES

This Call for Applications is published on the Teaching Portal – “Outgoing Mobility” portlet - at:

<https://www.polito.it/didattica/iscriversi-studiare-laurearsi/studiare-all-estero/bandi-per-mobilita-internazionale-studentesca/bando-tesi-su-proposta-20262027>

The forms are available at:

<https://www.polito.it/didattica/iscriversi-studiare-laurearsi/studiare-all-estero/bandi-per-mobilita-internazionale-studentesca/modulistica>

Any message from Politecnico di Torino will be sent through the “Ticketing Support System” to the student’s PoliTO mailbox: S<MATRICOLA>@STUDENTI.POLITO.IT or to the contact details in the university database.

For any information, students can contact the International Mobility Division using the “Ticketing Support System” by selecting the topic “OUTGOING MOBILITY - ERASMUS+ TESI SU PROPOSTA”.

14. PRIVACY – INFORMATION ON DATA PROCESSING

In accordance with the General Data Protection Regulation (EU Regulation 2016/679 - GDPR) and the “Code on the protection of personal data” (D.R. no. 196 of 30th June 2003 and further amendments), Politecnico di Torino (Data Controller) shall process applicants' personal data exclusively in pursuit of its institutional aims and for transparency purposes imposed by the law. Personal data shall be processed in accordance with the principles of lawfulness, fairness and data minimization.

The University policy on the processing of personal data is available at:

<https://www.polito.it/privacy/informative-privacy>.

The data controller is Politecnico di Torino, with headquarters at C.so Duca degli Abruzzi, n. 24, 10129 Torino, in the person of the Rector. For information and clarification: privacy@polito.it.

The Data Protection Officer of Politecnico di Torino, whom data subjects can contact for matters relating to the processing of their personal data and the exercise of their rights can be contacted at: dpo@polito.it.

15. PROCEDURE MANAGER

Pursuant to the provisions of Article 5 of Law no. 241 of 7 August 1990, the person responsible for the procedure under this Call for Applications is Ms. Barbara Ballauri, International

Mobility Division-INCAM Department - International Affairs e-mail:
[responsabile.mobilita@polito.it.](mailto:responsabile.mobilita@polito.it)
